

Prevailing Wage Determinations

At NurseAmerica, we are dedicated to ensuring that the immigration journey for our international employees is as smooth and transparent as possible. A key step in this process is the Prevailing Wage Determination (PWD), a critical requirement for filing I-140 petitions and sponsoring candidates for employment in the United States.

We fully understand the importance of timely processing and compliance with all legal obligations. Our team, in collaboration with our partners and clients, is actively working to secure PWD approvals to facilitate specific client assignments. By maintaining a proactive approach, we aim to minimize delays and keep the process moving efficiently.
